Lautaro Evaristo Mendez

Data Engineer | Data Scientist
Buenos Aires, Argentina
+54 9 11 7062-9360 • lmendezayl@gmail.com • linkedin.com/in/lmendezayala • lmendezayl.github.io

Summary

Data Scientist & Engineer specialized in **process automation** and end-to-end data tool development. Proven track record of **reducing execution times** and **eliminating operational errors** through **Python**, **FastAPI**, and **Cloud integration**, with hands-on experience deploying containerized applications (**Docker**) and **automating complex workflows**.

Mobility: hybrid or remote
Availability: full-time, part-time

Experience

Data Engineer | Grupo Penna | Buenos Aires, ARG | September 2025 - December 2025

- **Development** and **deployment** of **ETL** pipelines between external APIs and **databases** (SQL Server) using **Python** with FastAPI. **Documentation** of processes, changes, and integrations.
- **Implementation** and **dockerization** of projects in **AWS** EC2 instances, automating daily ETL processes.
- Creation of **reports** in **Looker Studio** integrating data from Google forms and databases.

Process Assistant | GFPrint | Buenos Aires, ARG | April 2025 - September 2025

- **Automation** of billing and order management processes in **Google Sheets** using **Apps Script**.
- **Reduction of execution times** from minutes to seconds, eliminating manual errors.

Prompt Engineer Intern | Scale AI | Buenos Aires, ARG | May 2024 – July 2024

- **Development of prompts** for LLM based on LLaMA 3, evaluating response quality with **Python** and data analysis.
- Application of data structures, logic, and mathematics for model improvement.

Junior PeopleSoft Developer | Ataway S.A. | Buenos Aires, ARG | November 2022 – May 2023

- Collaboration in customization and improvement of **HCM applications** with **PeopleTools**.

Education

Bachelor of Science in Data Science (Fifth Year) | University of Buenos Aires (UBA)
Algorithms • Statistics • Data Modeling • Machine Learning • Neural Networks • Databases

VII Industrial Mathematics Workshop (TAMI) | Puriteina | FCEN-UBA | March 2026

- Collaborating on a **mathematical modeling** project to **optimize protein concentration** in TFF systems.
- Working in a **multidisciplinary team** to implement a Streamlit API as solution to the client.

Technical Skills

Languages	Python • Java • SQL (PostgreSQL, SQL Server) • Google Apps Script
Python Stack	Pandas • Sklearn • SciPy • SQLAlchemy • FastAPI • Pydantic
Technologies	Git • Linux • APIs (REST, SOAP) • Github Actions • Google Analytics
Tools	Power BI • Looker Studio • Excel • Docker • Postman • DataBricks
Cloud	GCP (Big Query, Cloud Run) • AWS (EC2, Redshift) • Docker • Streamlit

Courses & Certificates

Databricks	Lovelytics Certification | 2026
Power BI	Official Microsoft Certification | 2025
Oracle Cloud	Official Oracle Certification | 2022
C1 English	International Baccalaureate (IB) | 2020
B2 Italiano	Certificazione di Italiano come Lingua Straniera (CILS) | 2019
Interests	Finance • Data • Classical Guitar • Astronomy • Video Games
